

Ex db ib mb [ib] IIB T4 Gb

Our latest battery innovation is specifically designed for use in areas with explosion hazards. With a robust and reliable design, it can power a variety of devices for remote data logging and sampling in challenging environments. Opt for our explosion-proof battery for a dependable and efficient energy source that meets the demands of hazardous environments.

- Unique **zone 1** use
- Robust aluminium design
- High ingress protect for camera **IP65**

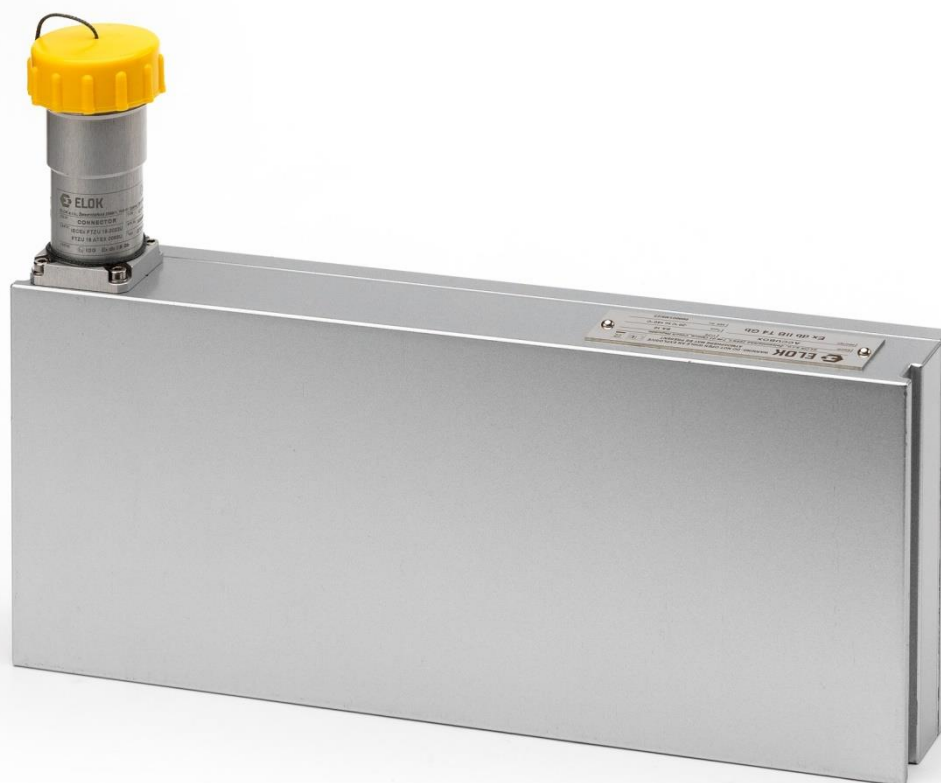

Accubox BA.10

Protection Ex db IIB T4 Gb
 Certificate IECEx
 Ingress Protection IP65
 Ambient Temperature -20°C to +50°C
 Capacity 10Ah
 Technology..... Li-Ion
 Rated output voltage 14.6V
 Rated output current..... 1.5 A
 Enclosure Material Aluminium
 Dimensions 280 x 125 x 45 mm
 Weight 3 kg

Charger

Charging time.....less then 10h
 Charging voltage 19V
 Charging Current 2.4 A
